

Media Kit 2026

ew

Magazin für die
Energiewirtschaft

ew

The media brand ew is part of the energy trade magazines from VDE Verlag

- Together with the other energy trade magazines netzpraxis, et, EUROHEAT&POWER, and Steuern der Energiewirtschaft, the complete value chain of the energy industry and its target groups is covered
- Special issues and special sections
- As e-magazines with online research
- ew-magazin.de Channel on energie.de
- Newsletters and special newsletters
- the virtual webinar format „Best of Day“.

media2b

The media network for your B2B marketing

media2b is the media network for successful B2B marketing in eight sectors.

The portal bundles the services of the leading media of VDE VERLAG GmbH, EW Medien und Kongresse GmbH and HEALTH-CARE-COM GmbH and offers a variety of advertising formats for optimal lead generation and the efficient use of media budgets. Strategic and conceptual consulting is also included in addition to pure media services in the group of companies' network.

www.media2b.de

Twenty brands

avn. – allgemeine vermessungsnachrichten, building & automation, Digital Factory Journal, EHEALTHCOM, energie.de, et – Energiewirtschaftliche Tagesfragen, etz elektrotechnik & automation, EUROHEAT&POWER, ew – Magazin für die Energiewirtschaft, EW Medien und Kongresse, gis.Business, gisPoint.de, gis.Science, netzpraxis, openautomation, smart-production.de, StE – Steuern der Energiewirtschaft, Sonne Wind & Wärme, VDE VERLAG, VDVmagazin, Wichmann Verlag

Diverse channels

Print, web, newsletter, videos, podcasts, social media, etc.

Customized advertising formats

Almost 50 different advertising formats from advertorials to junior pages and wallpapers

Eight sectors

Electrical engineering, energy, automation & drive technology, e-health & medical technology, digitalization & information and communication technology, heating, ventilation, air conditioning and refrigeration technology, geo-IT & geodesy, building technology

Events

Trade fairs, congresses, exhibitions and sponsorship

Agency services

Full-service offerings for the development and implementation of your B2B communication campaigns

1 Kurzcharakteristik	Decision-makers in the energy industry expect fully comprehensive specialist information across various media channels. With the print magazine, ew's concept offers in-depth specialist information with a technical and practical project background. The e-magazines with archive and search function are a sustainable added value for all ew readers. The ew-newsletter informs about news from the industry and at ew-magazin.de news, job offers and further services can be found. In the strong online association with energie.de, ew also reaches cross-sector target groups and economic sectors. Plan your campaigns with the most traditional energy trade title in German-speaking countries. Our campaign modules (page 25) are tailored to your marketing goals.

	Neighborhood Concepts – Renewable Energies – Grids and Infrastructure – Customer Management – Digitalization The role of municipal utilities is changing fundamentally. They are transforming themselves from mere suppliers to comprehensive infrastructure service providers and coordinators of the regional energy transition. This results in new lucrative business areas and tasks. Examples include a smart street lighting, the extension of public charging infrastructure as well as services around neighbourhood development and housing industry. The ew Special "Stadtwerke" (Municipal Utilities) is focusing on these new challenges and presents possible solutions. Special topics include among others: renewable energies, neighbourhood concepts, municipal heat planning, climate protection concepts, mobility services, smart city and smart grid solutions, smart metering, customer services, process automation

 olaf.schneider@vde-verlag.de

1 Size of Journal:	210 mm wide, 297 mm high, DIN A4
Full Page Type Area:	170 mm width, 248 mm height 3 columns of 53 mm width
2 Printing and Binding:	Offset printing (sheets or rolls), saddle stitch or glue binding is used.
3 Electronic Data Submission:	or digital media please use our email address anzeigen@vde-verlag.de or send a CD-ROM/DVD. Please remark on Delivery Note: • order name/name and issue of publication • final output format (specify a bleed of 3 mm, if applicable).
4 Data File Formats:	We recommend the delivery of PDF data files. In addition, the following programs are supported: • Adobe InDesign/Photoshop/Illustrator up to Version CC • Microsoft Word up to Version 2024 At least the file must be ready to be printed: all fonts needed have to be included, continuous-tone pictures require a resolution of 300 dpi and line art pictures at least of 600 dpi. No password protection.
5 Color Processing:	Process colors (CMYK) according to ISO 12647-2 (PSO), special colors on request. Our standard offset profile is „Coated FOGRA39 (ISO 12647-2:2004)“ of ECI.
6 Proof:	Color proofs for “standard print media” (bvdn). Digital proofs need to have the Fogra media wedge included to verify the color accuracy (available for purchase at the www.fogra.org). Proofs must have an official print control strip.
7 Data Archiving:	Data will be archived, therefore unchanged repetitions are possible. However, a guarantee on data archiving is not provided.
8 Guarantee:	Upon delivery of incomplete or incorrect data (text, colors, images), we assume no liability for printing results. Exposure errors due to incomplete or corrupted data files, incorrect preferences or incomplete information will be charged. This also applies to additional composition or reproduction work and for the consequences of incorrect proofs.

Requirements for a Smooth Production Flow

If not delivering a PDF/X-3 data file: Please make sure that all files and data necessary for reproduction are included. All TIFF or EPS picture files (including logos) have to be supplied. Do not save files in JPEG or GIF Format.

Please make sure that all fonts used (in EPS files as well) are included or supplied additionally as printer and screen fonts.

We are not able to modify or correct any Postscript files.

For color advertisements you may only use the process colors cyan, magenta, yellow and black (CMYK), no RGB colors. If you are using special spot colors it must be denoted clearly as they have to be printed in a separate form and they are charged separately.

Please include a binding proof/laser printout.

Bound-In Inserts

Prior to the final acceptance we need a sample (or at least a dummy with the expected weight and dimensions) of the planned bound-in inserts. Bound-in inserts are only allowed if they promote the sales program of one company only. According to postal regulations they must be designed in such a way, that they cannot be misinterpreted as editorial pages. The placement of bound-in inserts is constrained to the technical possibilities. Bound-in inserts printed on a non-paper material are only allowed if the publisher has the consent of the postal authorities.

Formats	Each sheet 306 mm high, 213/216 mm wide (including bleed: 6 mm at the head, 3 mm at the foot, 3 mm at inner and outer edge with adhesive binding or 3 mm at outer rim only with wire stitching.
Copies required	4.100 copies
Technical Specifications	The bound-in inserts are to be delivered untrimmed (and folded, if applicable). The front page of the inserts have to be clearly marked. They have to be ready for insertion without the need of further work. If any additional folding and/or gluing work is necessary, it will be charged separately. If the insert consists of several pages, it has to be folded in such a way, that it is closed in the direction of the fold (direction of the insertion). Otherwise extra costs have to be charged.

* wire stitching only ** adhesive binding only

Delivery Address:

Prepaid delivery, untrimmed and ready for insertion, with delivery note

“For ‘ew - Magazin für Energiewirtschaft‘ Edition ... (No.)” to:

NINO Druck GmbH
Herrn Bernd Buch
Im Altenschemel 21
67435 Neustadt/Weinstraße
Telefon: +49 6327 974325

**Loose Inserts**

Prior to the final acceptance we need a sample (or at least a dummy with the expected weight and dimensions) of the planned inserts. Loose inserts are only allowed if they promote the sales program of one company only. According to postal regulations they must be designed in such a way, that they cannot be misinterpreted as editorial pages. The placement of loose inserts is constrained to the technical possibilities.

Insertion Note	A free note is included in the table of contents.
Copies Required	4.100 copies
Delivery Date	Up to 10 days after the deadline for advertisements, see schedule and editorial calendar.
Format	Maximum 205 mm wide × 292 mm high
Technical Specifications	Loose inserts have to be composed of one piece and must be ready for insertion without further treatment. If any additional work (e.g. folding) is necessary, it will be charged separately. Inserts printed on a non-paper material are only accepted after presentation of a final sample and if the publisher has the consent of the printing shop and the postal authorities. If the insert consists of several pages, it has to be folded in such a way, that it is closed in the direction of the fold (direction of insertion).

Delivery Address for Loose Inserts:

Delivery of the inserts by trucks with tail-lift only, freight paid and ready for insertion, with delivery note

„For ,ew - Magazin für Energiewirtschaft‘ Edition ... (No.)“ to:

NINO Druck GmbH
Herrn Bernd Buch
Im Altenschemel 21
67435 Neustadt/Weinstraße

Banners

All banners and advertorials are displayed Run-of-Sight (RoS) in the et channel on energiewirtschaft.de. This gives you the highest possible reach without scatter losses.

Position:

Placement is according to the booked position, as far as it is possible according to the page design. The positions may deviate from the illustration.

Technical Notes:

Your banner will be displayed according to the technical possibilities on desktop and mobile (responsive) devices. The banner display on the desktop is without rotation. On the mobile device they can rotate.

Presentation Note:

The final presentation of all banners is subject to the settings of the respective Internet accesses (adblockers/firewalls, etc.), of the end devices, of the type of media usage (desktop/tablet/smartphone), and of the screen sizes.

General Terms of Business of VDE VERLAG GMBH

for advertisements and third party inserts in magazines and books and for online advertising

1. Area of Application

Insofar as nothing else is expressly confirmed in writing by VDE VERLAG GMBH ("the Publisher") all contractual relationships of each of the Publisher's customers with the Publisher are governed solely by the following General Terms of Business. They are also solely binding when conflicting general terms of business of the Customer's have not been explicitly rejected by the Publisher.

2. Definitions

- 2.1. An advertisement is any promotional publication in printed materials or online offers of the Publisher.
- 2.2. An advertising order is a contract for publication of one or more advertisements of an advertiser or other person placing them on an online offer or in printed materials of the Publisher for the purpose of distribution. To become effective, such a contract must be confirmed in writing by the Publisher.
- 2.3. A standard advertising contract is one with a term of 12 months.
- 2.4. Online advertising is, for example, advertising banners, pop-ups, white papers, webcasts, microsites, webinars, special interest and/or keyword placements on the Publisher's online offers and in its electronic newsletters.

3. Rebates

Rebates on contracts with term of 12 months are based on the actual published scope of the advertisements during the 12 month period, insofar as the Publisher is not responsible for deviations from the agreed scope. In such a case the Customer shall pay the difference between the rebate granted in advance and the rebate as based on the actual scope of advertising.

4. Placement

- 4.1. The Customer shall notify the Publisher in good time before the closing time for advertisements in the event that advertisements, inserts and other supplements are to be published in particular numbers, particular editions or in particular places of printed matter.
- 4.2. Such a notification is made in good time if, assuming a normal course of business, the Customer can still be notified in writing in the event that the Customer's request cannot be carried out.
- 4.3. Placement requests for which a separate surcharge is not agreed are honoured solely at the Publisher's free discretion.
- 4.4. If the Customer decides that contrary to the original order an advertisement is not to appear in a preferred location, then the Customer must notify the Publisher of this in writing at least 6 weeks before closing time for advertisements.
- 4.5. Online advertising is placed by the Publisher at its equitable discretion with due consideration given to the interests of the Customer. Insofar as nothing else is agreed, the Customer does not have a right to a particular placement within the Publisher's online offers or newsletters.

5. Contents and Arrangement

- 5.1. The Publisher is entitled to refuse to publish advertisements, inserts or other supplements, as well as online advertising, because of its contents, its origin or its technical form, insofar as its contents violate applicable law or public morals or publication would be unreasonable for the Publisher. A publication is unreasonable for the Publisher if, for example, inserts or other supplements can give readers the impression, through their form or design, that these are parts of the printed matter for which the Publisher is responsible, or, if they contain advertising from any third party. The Customer will be notified of any such refusal to publish.
- 5.2. The publication of inserts and other supplements presupposes in principle that a sample has been submitted in advance.
- 5.3. Online advertising must be delivered by the Customer in accordance with the technical requirements of the Publisher no later than the deadline agreed in the order. The Publisher does not check whether or to what extent the advertising materials provided by the Customer are suitable for the Customer's advertising purpose and are in keeping with the Customer's needs. In the case of online advertising which due to its technical design allows collection and storage of usage data, the Customer assures that all such collection and storage of data is done in accordance with the statutory requirements (particularly those of the EU's General Data Protection Regulation (GDPR)).
- 5.4. Advertisements and online advertising which due to their editorial design cannot be recognized as such can be made recognizable as such by a clear notice such as "Advertisement" that is added by the Publisher.
- 5.5. The Customer warrants that the advertising materials supplied by the Customer as well as any linked target sites do not violate applicable law, and do not compromise or violate any rights of any type of any third party. In particular, the Customer warrants that the advertising materials are designed so that (a) the impression of a system message cannot arise and (b) all functional elements (e.g. search screens, pop-up menus, selection boxes) can actually be activated.
- 5.6. The Customer is responsible for timely delivery of printing materials. The Publisher's obligation to keep printing materials expires three months after the advertisement was published.
- 5.7. If the Customer does not notify the publisher of any dimensions for the advertisement, the Publisher will execute it in the smallest format that is possible.
- 5.8. The Customer assures that it is the holder of all required usage and exploitation rights to the advertisements and grants the Publisher a usage right to the advertising materials that is simple, non-exclusive, non-transferable, worldwide, and limited in time to the period and in contents to the purpose of the contract. The Customer agrees to indemnify the Publisher upon first demand of all claims of third parties that assert a violation of rights and to render the Publisher compensation for all disadvantages and damages the Publisher sustains in this connection.

6. Publisher's Warranty and Liability

- 6.1. The Publisher warrants the print quality customary for orders of the type in question, in the context of the possibilities prescribed by the printing materials. If the printed advertisement is entirely or partially illegible, incorrect or incomplete, and if the Publisher is responsible for this, then the Customer shall have a right, as the Customer may choose, to a reduction in the price of the advertisement or to a replacement advertisement unless a replacement advertisement would be possible only at disproportionate costs.
- 6.2. The Publisher shall place online advertisements during the agreed period of time and keep the relevant websites available. The Publisher warrants that the website(s) on which online advertisements appear are available at least 161 hours per week. If, during the period of the contract, this availability stays behind what is contractually agreed, then the Customer shall be entitled to a reasonable reduction of the price. This does not apply if the inferiority of performance is insignificant.
- 6.3. The liability of the Publisher for compensation for damages is limited to intention and gross negligence, insofar as there is no loss of human life, bodily injury or damage to health and insofar as there is no violation of essential contractual obligations. In cases of slightly negligence violations of essential contractual obligations, the Publisher is liable only for the amount of damages that are typical of this type of contract and that could be foreseen when the contract was concluded. Liability of the Publisher for slightly negligent violations of non-essential obligations is barred.
- 6.4. The Publisher is liable for damages which arise from malfunctions of internet lines, servers or other facilities only to the extent that such malfunctions lie within the Publisher's sphere of responsibility.

7. Proofs

Proofs are delivered only at the express request of the Customer. The Customer bears the risk that proofs are not delivered in time and that returned corrected proofs are not correct. If the corrected proofs are not received by the Publisher within the period of time specified by the Publisher, then permission to print will be deemed to have been granted when this period of time for receiving corrected proofs has expired.

8. Specimen Copies

After publication, the Customer shall receive a complete copy as documentary evidence. With job and occasional advertisements, the page on which the advertisement appeared will be sent as documentary evidence. If it is no longer to procure a specimen copy, the Publisher will certify in writing that the advertisement was published.

9. Prices

- 9.1. All prices are stated as net prices in addition to which the applicable statutory value added tax is to be paid.
- 9.2. Price changes that occur during the period of a 12 month contract with a company go into effect immediately, insofar as nothing else was already agreed.
- 9.3. The preparation of drawings, printing materials and significant changes in submitted printing materials are charged at cost.
- 9.4. Insofar as nothing else is agreed, online advertising is offered at monthly fixed prices. The Publisher does not guarantee particular levels of click rates, ad impressions, leads or other access statistics.

10. Review of Online Advertising

When online advertising is broadcast for the first time, the Customer will review it without delay for proper placement and report any errors to the provider within three working days. Online advertising to which no objections are raised within this period is deemed to have been accepted.

11. Cancellation of advertisements and online advertising

- 11.1. Commissioned advertisements and online advertising can be canceled before the agreed start of placement. Cancellation must be made in writing.
- 11.2. Preferred ad placements can be canceled free of charge up to 2 weeks before the advertising deadline and front pages can be canceled free of charge up to 4 months before the advertising deadline.
- 11.3. Cancellation of online advertising up to 8 weeks before the start of placement is free of charge. If canceled within 8 weeks before the start of placement, the publisher is entitled to charge the following cancellation costs:
 - 50% of the net order value if canceled 8 weeks or more before the start of placement;
 - 75% of the net value of the order in the event of cancellation from 4 weeks before the start of placement;
 - 100% of the net order value if canceled 1 week or more before the start of placement.

12. Reduced Print Runs

A reduced print run constitutes a defect that justifies a price reduction only if the shortfall is 20 % or more with a print run of up to 50,000 copies. Then the price reduction is proportional to the shortfall.

13. Payment Conditions

Payments are due in full within 30 days. The Publisher reserves the right to demand advances from new customers.

14. Payment Default

- 14.1. If payment is not received within 30 days after the date of first appearance, then the Customer enters payment default even if there is no reminder. In a case of payment default by a customer which is an entrepreneur, the Publisher is entitled to charge a standard fee in the amount of 40 euros. This amount will be credited to compensation for damages in the event that the damages are based on the costs of collection. During the period of payment default, customers which are entrepreneurs are also charged default interest in the amount of 9 % above the base interest rate.
- 14.2. If the Customer is in payment default, the Publisher reserves the right to make further appearances of advertisements dependent on payment of advances even during an ongoing standard advertising contract.

15. Applicable Law and Place of Jurisdiction

- 15.1. This contract is governed by the law of the Federal Republic of Germany.
- 15.2. The place of fulfillment and jurisdiction for business with merchants, legal entities of public law and public law special funds is the legal domicile of the Publisher. If the place of residence or usual abode of the Customer is not known when litigation is filed or if the Customer has moved his, her or its residence or place of usual abode to a location outside the area of applicability of the ZPO (German Code of Civil Procedure), then it is agreed that the place of jurisdiction is the legal domicile of the publisher.

16. Data Processing

During the course of its business activity the Publisher uses a data processing system to process customer data in the framework prescribed by the EU's General Data Protection Regulation (GDPR) as permissible. A data protection officer has been appointed by the Publisher.

17. Other Regulations

The publisher does not take part in alternative dispute resolutions in front of consumer conciliation boards.
